

Aim:

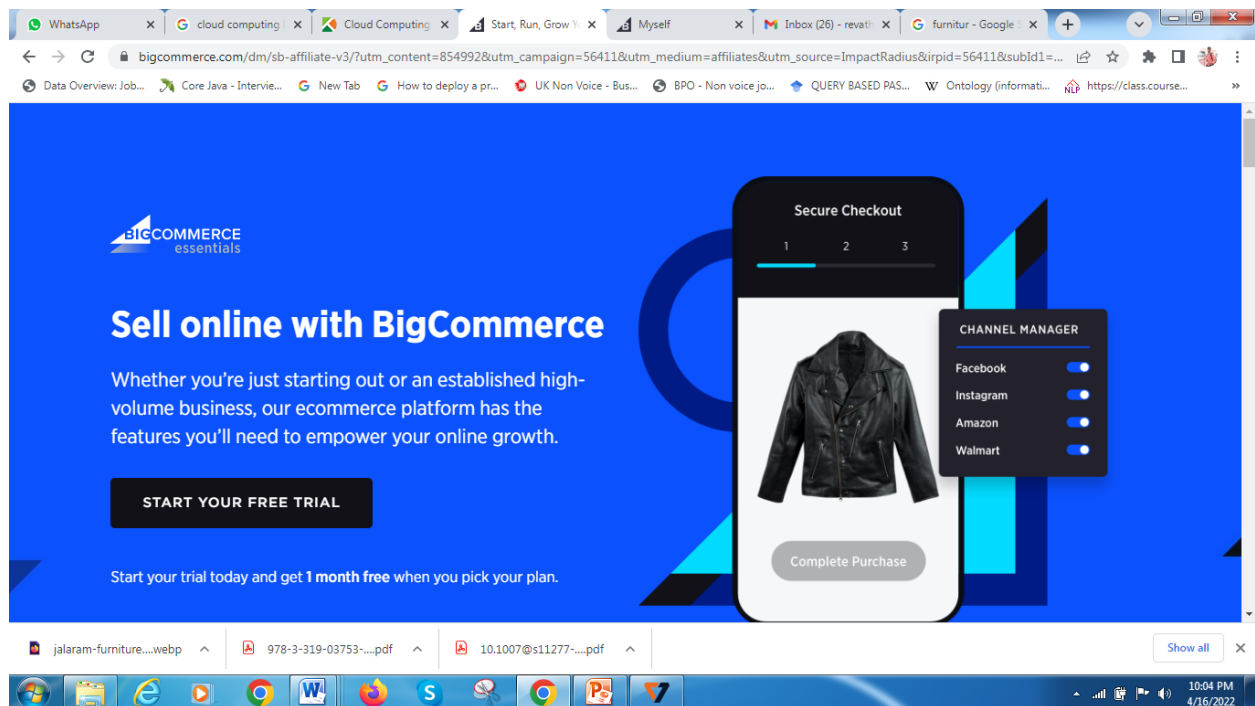

To Explore the features provided by Cloud Resources in bigcommerce online cloud lab learning environment.

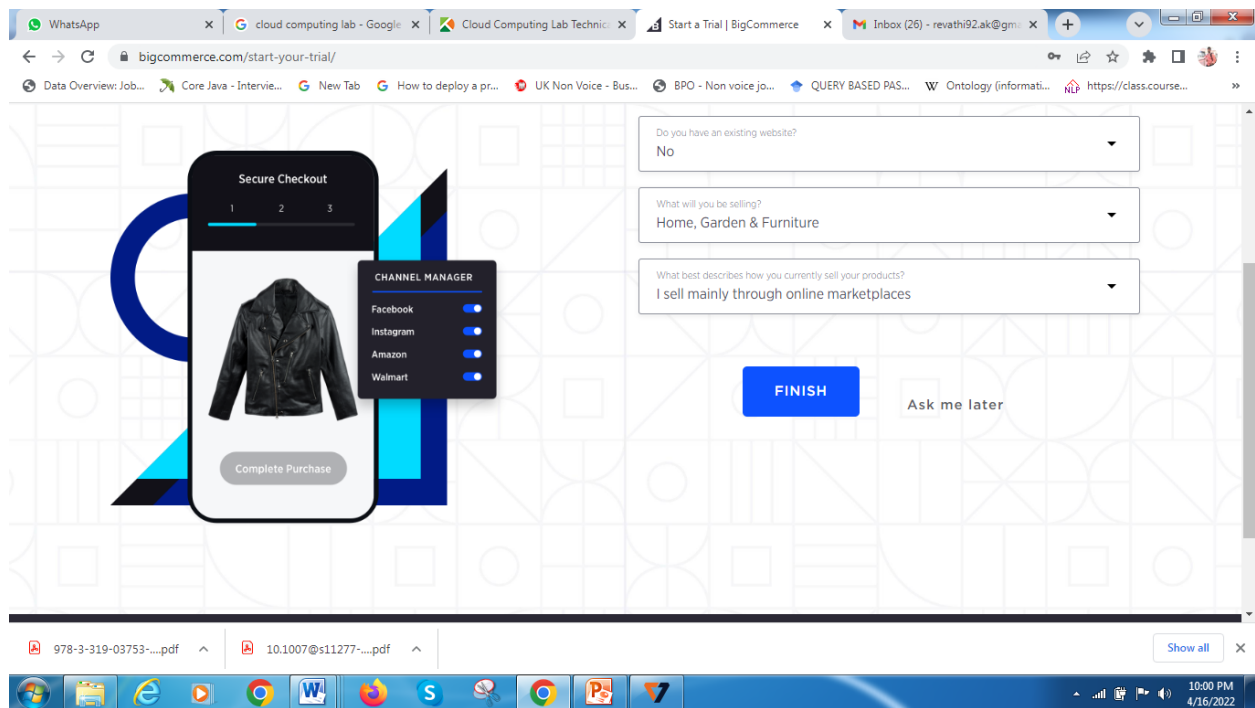

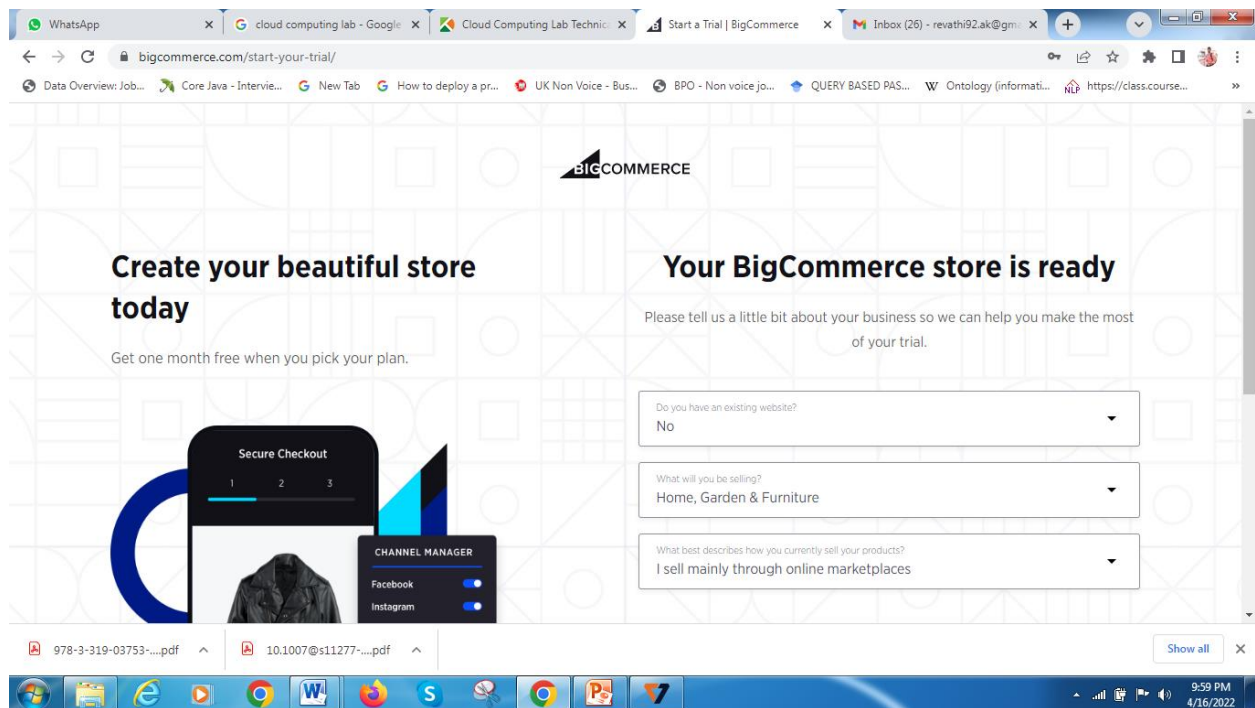

Concept:

BigCommerce is a public-traded e-commerce platform offering Software-as-a-Service (SaaS) services for building and hosting online stores.

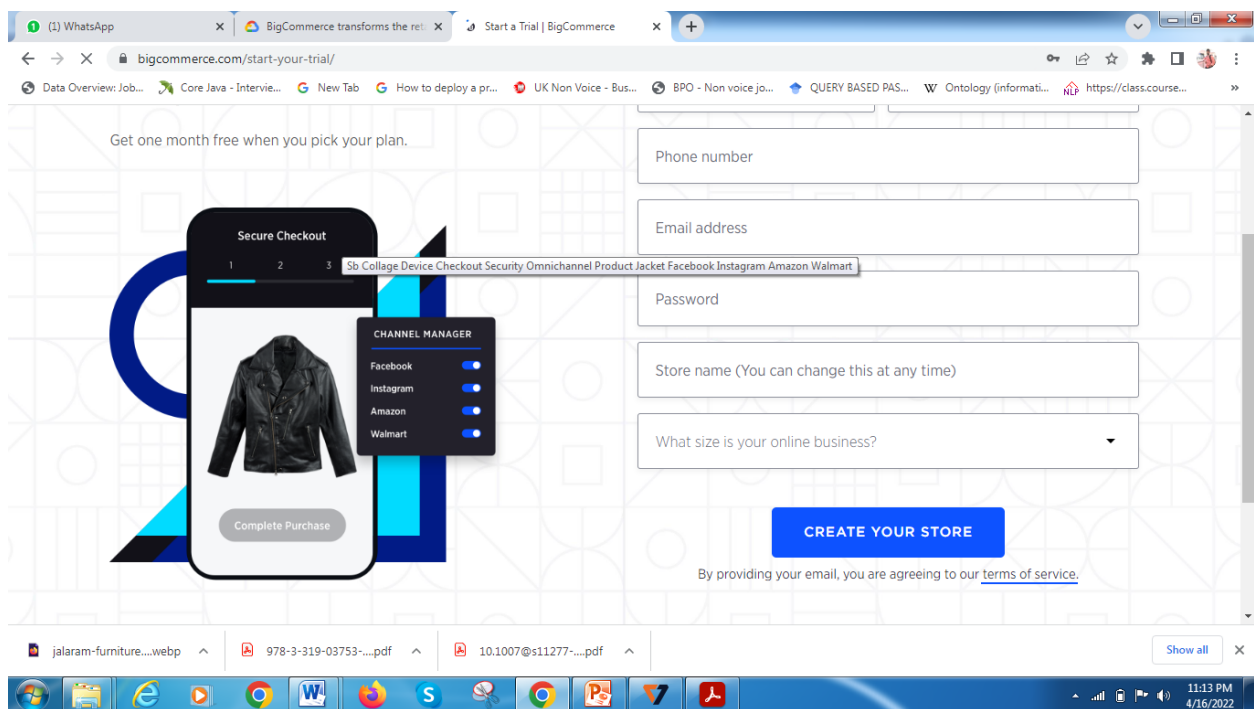

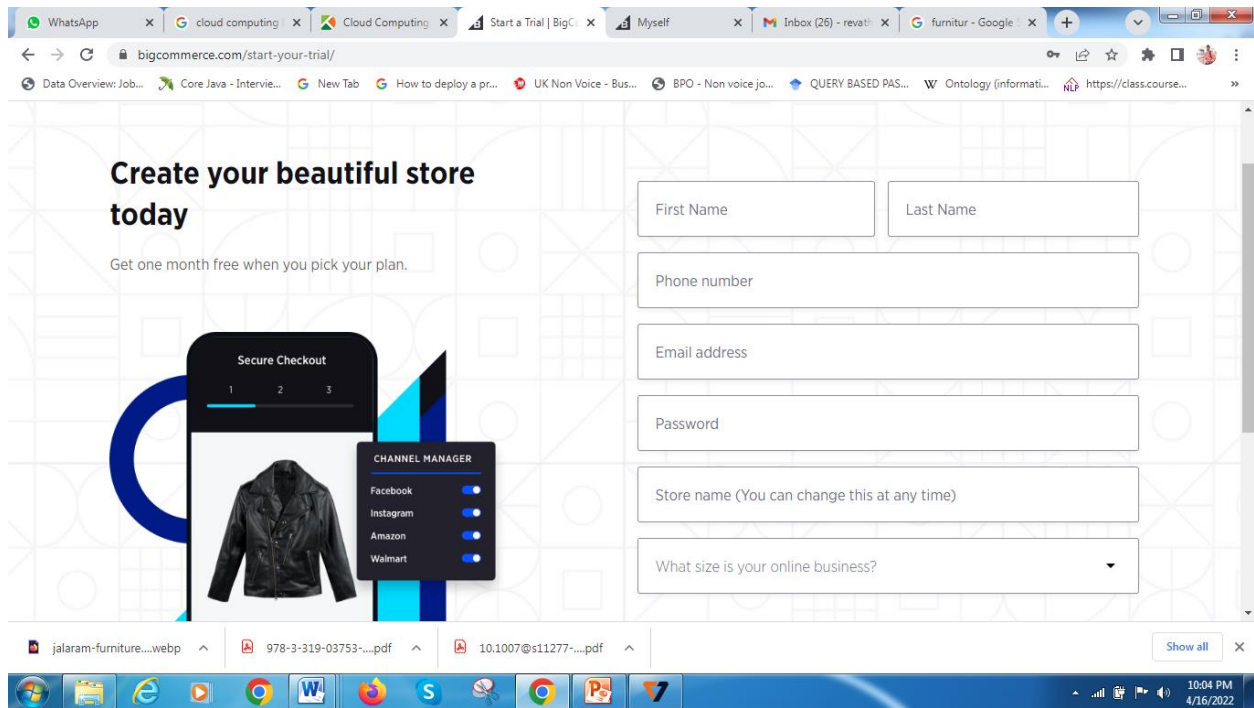

Process/Procedure :

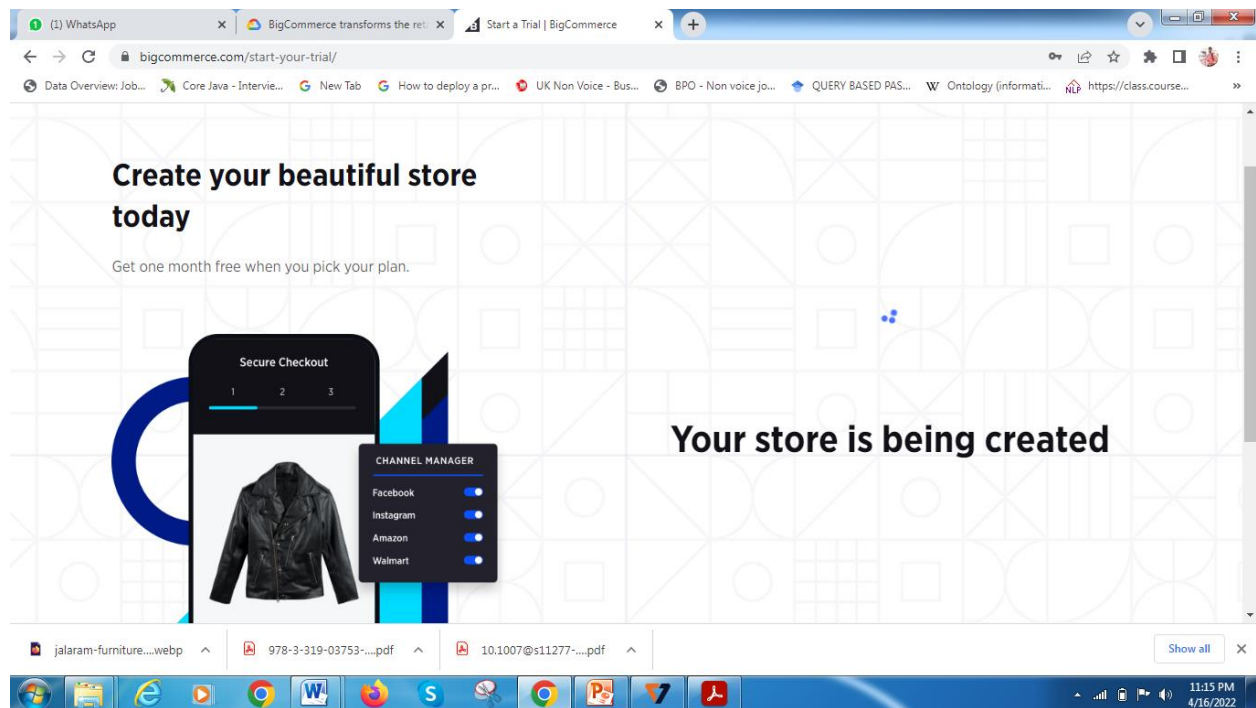

1. Go to <https://www.bigcommerce.com/start-your-trial/>
2. Create a new bigcommerce account and Login
3. After LOGIN Explore the Following Features of bigcommerce Online store
4. Create and Manage Cloud Resources–begin

Experiment**Step 1: Create a new bigcommerce account and Login****After LOGIN Explore the Following Features of bigcommerce Online Cloud Lab Learning Environment****Step 2: Create and Manage Cloud Resources–begin**

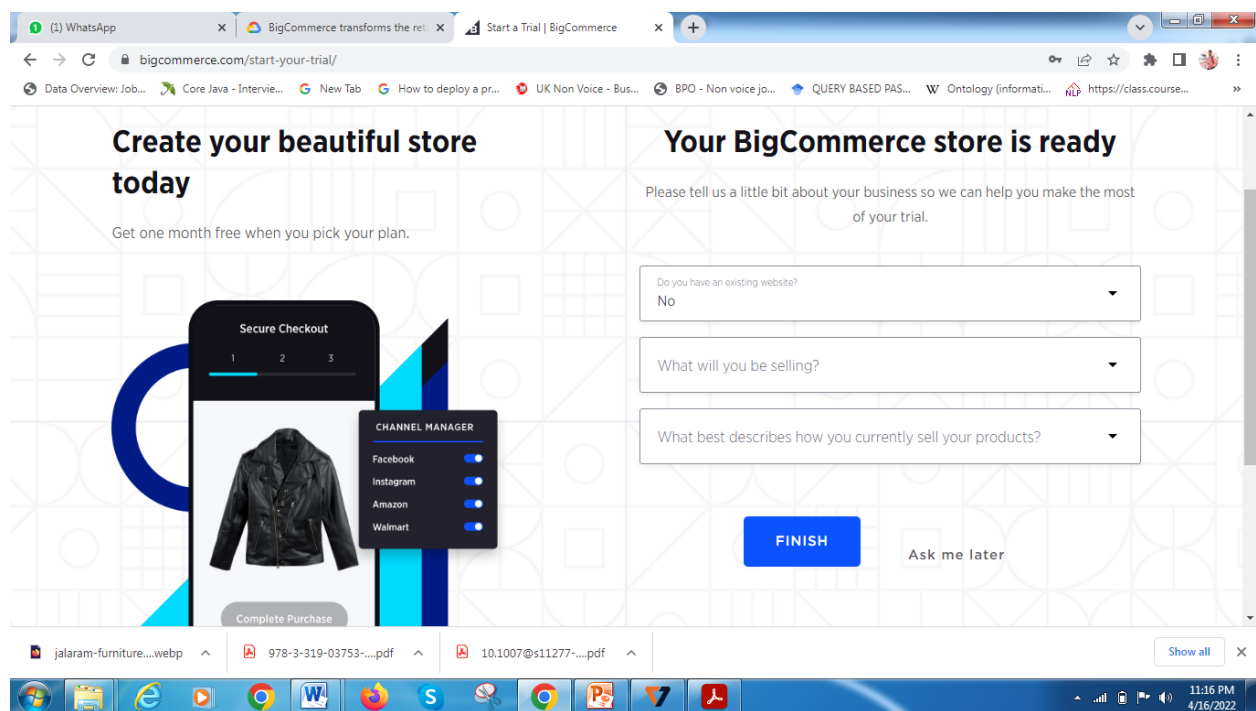

Step 3: Create our own store

Step 4: Select your selling goods

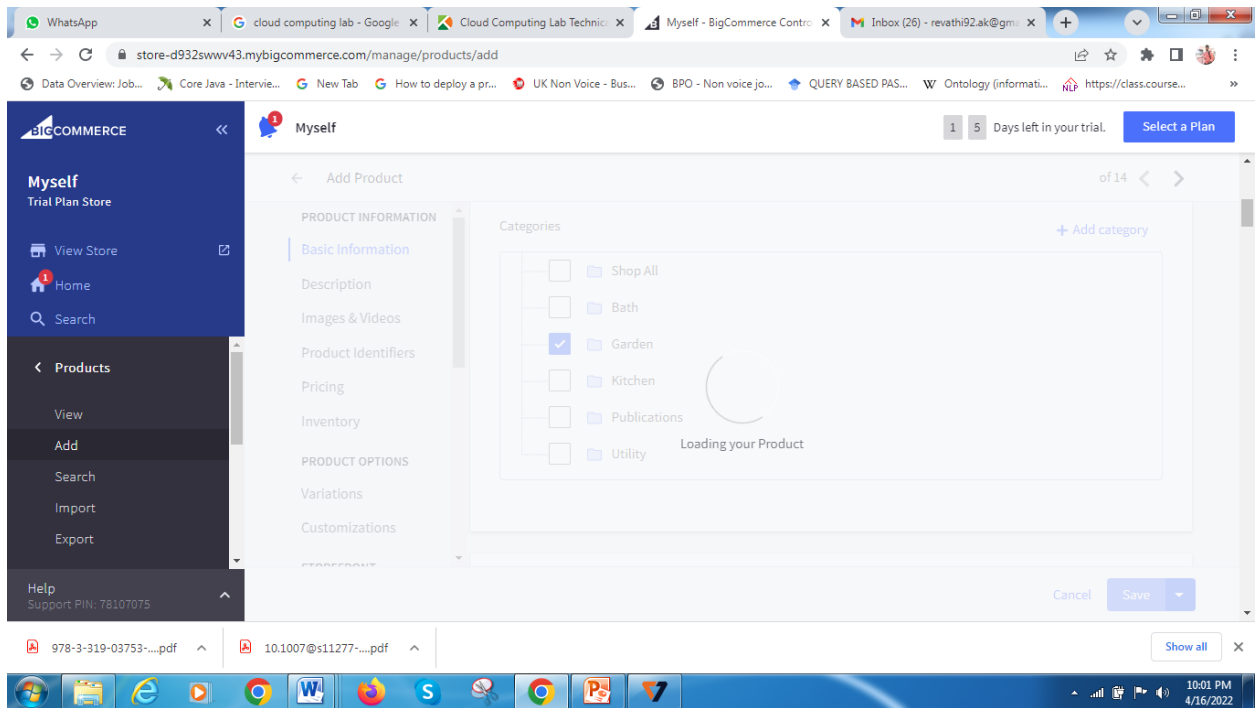

Step 5: Add products to sell using Add Product icon.

The image displays two screenshots of the BigCommerce dashboard interface.

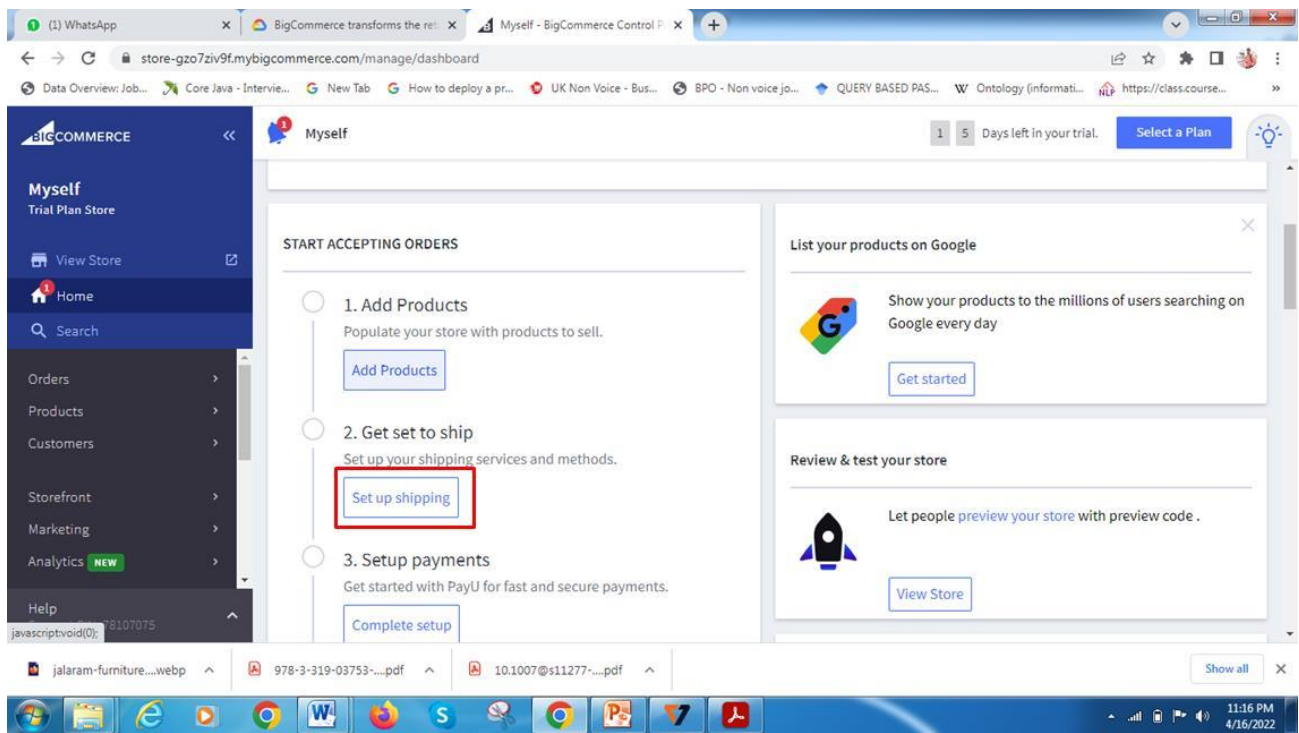

Top Screenshot: The dashboard shows the "START ACCEPTING ORDERS" section. A red box highlights the "Add Products" button. The sidebar menu includes "Myself", "View Store", "Home", "Search", "Orders", "Products", "Customers", "Storefront", "Marketing", "Analytics", and "Help". The main content area lists steps: 1. Add Products (Populate your store with products to sell.), 2. Get set to ship (Set up your shipping services and methods.), and 3. Setup payments (Get started with PayU for fast and secure payments.). A "List your products on Google" section is also visible.

Bottom Screenshot: The dashboard shows the "Add Product" form. The "PRODUCT INFORMATION" section is active, and the "Basic Information" tab is selected. The "Visible on Storefront" checkbox is checked. The "Product Name" field contains "Furniture" and the "SKU" field contains "001". The "Save" button is highlighted.

Step 6: Save the product

Step 7: Shipping country and minimum amount configuration

Step 8: Go to Setup payment option for learning the payment applications
